How Olympic Golf Works

Olympic Golf will take place at the beautiful Le Golf National Albatros Course which also hosted the 2018 Ryder Cup.

The goal of Olympic Golf is to complete the 4-round, 72-hole event format with the fewest total strokes (par for a round is 72).

60 players qualify in both the men's and women's competition although a country can only bring a maximum of four golfers for each competition.

Below are some scorecards in case you want to track some of your favorite golfers throughout the tournament.
